

HILLARY ESPOSITO

UX/Product Designer | Mobile Pattern Analysis | Human-Centered Systems Design

New York City | 908-616-2712 | espositohillary@gmail.com | hillaryesposito.org | linkedin.com/in/hillaryesposito | English/Spanish

SUMMARY

Designer and process improvement leader focused on making complex systems easier to use, adopt, and sustain. Combines UX research, mobile pattern analysis, product thinking, healthcare operations, and military logistics experience to translate live product behavior and operational friction into clearer flows, interfaces, documentation, and adoption systems. MHA, Lean Six Sigma Green Belt, U.S. Army veteran, and bilingual English/Spanish communicator with documented 20-85% gains in cost, efficiency, task completion, and cycle time.

SELECTED IMPACT

- Analyzed live mobile, web, and financial-app product flows at Mobbin across interaction states, navigation structures, microcopy, accessibility, IA, and design-system behavior for launched reference content used by product and design teams.
- Improved internal tool task completion by 25% through UX research, usability testing, and workflow redesign for 21,000+ clinical and administrative staff.
- Reduced medical resupply time by 85% and spending by 60% through data-driven forecasting, digital tracking, and cross-unit coordination across 7 aid stations in 3 countries.
- Designed and built Grove from research and IA through visual design, React front end, beta testing, and iteration.

EXPERIENCE

Freelance UX Content Designer / App Capture Specialist | Mobbin

Remote | Mar 2026-Jun 2026

- Captured and analyzed mobile, web, and financial-app product flows, UI patterns, interaction states, navigation structures, and microcopy across live digital products for launched reference content.
- Evaluated experiences for visual hierarchy, accessibility, layout consistency, interaction clarity, information architecture, and design-system behavior.
- Translated product behavior into structured pattern documentation that helped designers understand reusable interaction models, user decision points, and scalable product practices.

Trainer / Specialist, UX Research & Internal Tools | Memorial Sloan Kettering Cancer Center

New York, NY | Jan 2022-Jul 2024

- Led stakeholder discovery, workflow analysis, UX research, and usability testing on internal tools used by 21,000+ clinical and administrative staff.
- Redesigned workflows to reduce cognitive load and improve task completion by 25%, translating research insights into shipped tool and process changes with engineering and operations.
- Redesigned staff onboarding using feedback data, improving user comprehension, process consistency, and adoption.

Commissioned Officer | NJ Army National Guard

2013-2026 | Platoon Leader -> Company Commander, Medical Company -> Brigade Medical Supply Officer

- Directed medical logistics for 5,000+ soldiers and \$2M in supplies in Iraq while absorbing the vacant Medical Operations Officer role and reporting medical operations to the Pentagon.
- Designed data-driven tracking and coordination workflows across 7 aid stations in 3 countries, cutting resupply time by 85%, reducing spending by 60%, and improving coordination by 15%.
- Translated complex operational data into clear guidance for technical and non-technical stakeholders under extreme time and resource constraints.

Administrative Assistant / Office Coordinator | Memorial Sloan Kettering Cancer Center

New York, NY | 2018-2022

- Reengineered certification workflows for a 70% efficiency gain by simplifying handoffs, reducing errors, and improving process visibility.
- Led redesign of an Electronic Medical Record process that cut costs by 20% organization-wide; contributed UX and operational input on an internal SharePoint rollout.

SELECTED PROJECTS

Grove - Plant Care App | Founder, Product Designer, Developer | 2025-Present

- Conducted early user research, defined MVP IA and task flows, designed the visual system, and built the React front end for a plain-language plant-care assistant now in beta.

Hera - High-Fashion Hairband | Founder, Designer | 2025-Present

- Developing a premium accessory from concept through crowdfunding launch, including product identity, packaging, lookbook direction, reward-tier materials, and brand narrative.

SKILLS

UX / Service Design: user research, usability testing, journey mapping, service blueprints, workflow analysis, task analysis, accessibility, research synthesis

Product Design: information architecture, wireframing, prototyping, interaction design, visual hierarchy, mobile UI patterns, design systems, microcopy

Pattern Analysis: app flow capture, interaction states, navigation structures, onboarding patterns, content clarity, reusable product models

Tools & Technical: Figma, FigJam, Miro, Notion, HTML, CSS, React, SQL basics, AI tools for synthesis, prototyping, documentation, and analysis

EDUCATION & CERTIFICATIONS

Master of Healthcare Administration, with honors - Rutgers University | Bachelor of Science, Public Health - Rutgers University | Associate of Science - Valley Forge Military College

Google UX Design Certificate | Lean Six Sigma Green Belt, Purdue | UX, Data Analytics & Software Engineering Bootcamps, Noble Desktop | Generative AI Certificate, Noble Desktop
