

HILLARY ESPOSITO

PRODUCT DESIGNER | HEALTHCARE SYSTEMS, INTERNAL TOOLS & COMPLEX WORKFLOWS

New York City | 908-616-2712 | espositohillary@gmail.com | hillaryesposito.org | linkedin.com/in/hillaryesposito

PROFESSIONAL SUMMARY

Product designer with 13+ years working inside high-stakes healthcare and military systems. Turns frontline observation, workflow analysis, stakeholder input, and technical constraints into clearer internal tools and testable product flows. Initiated an MSK workflow redesign that later contributed to a 20% organization-wide EMR cost reduction. MHA, Lean Six Sigma Green Belt, U.S. Army veteran, and bilingual English/Spanish communicator.

CORE SKILLS

Product and interaction: information architecture, user flows, wireframes, functional prototypes, interaction states, accessibility, responsive design, design systems, design QA

Research and systems: workflow observation, stakeholder interviews, survey synthesis, usability testing, journey mapping, service blueprints, task analysis, scope prioritization

Tools and domain: Figma, FigJam, Miro, Notion, React, HTML/CSS, AI-assisted prototyping, healthcare operations, EMR workflows, Lean Six Sigma

PRODUCT DESIGN EXPERIENCE

Content Designer, Contract | Mobbin

Remote | Mar 2026 - Jun 2026

- Documented 200+ mobile screens per app across Kikoff, Polymarket, and Discover, mapping navigation, interaction patterns, visual hierarchy, and microcopy for a reusable UX reference library.
- Applied a consistent taxonomy and review standard so product and design teams could find and compare complete finance-app flows; assignment covered documentation, not ownership of the products.

Founder, Product Designer, Developer | Grove - Plant Care App

Independent product | 2025 - Present | Functional prototype, Phase 2 of 3

- Narrowed 11 proposed features to 3 after synthesizing a 34-person self-report survey, then translated the priorities into information architecture, interaction states, and a functional React prototype.
- Owns research planning, product scope, responsive interaction design, accessibility, prototype implementation, and iteration; prototype is not presented as a shipped consumer product.

SYSTEMS AND HEALTHCARE EXPERIENCE

Trainer / Specialist | Memorial Sloan Kettering Cancer Center

New York, NY | Jan 2022 - Jul 2024

- Rebuilt administrative onboarding across Epic, HIPAA, compliance, and role-specific workflows using staff feedback, clearer sequencing, and reusable training materials for a 21,000+ person organization.
- Partnered with clinical, IT, imaging, and operations stakeholders to clarify ownership, exceptions, and handoffs across complex internal processes.

Administrative Assistant / Office Coordinator | Memorial Sloan Kettering Cancer Center

New York, NY | 2018 - 2022

- Mapped a paper-to-digital EMR workflow across four departments and presented the redesign. MSK implemented it two roles later as part of a broader initiative that reduced organization-wide EMR costs by 20%.
- Rewrote technical and legal CPR certification material around clinician questions and handoffs, enabling every certification to be collected 70% ahead of a deadline that had been at risk of slipping.

Commissioned Officer | NJ Army National Guard

2013 - 2026 | Platoon Leader, Company Commander, Brigade Medical Supply Officer

- Cut medical resupply time by 85% and spending by 60%, and improved deployment coordination by 15% across seven aid stations in three countries through shared tracking and reporting workflows.
- Directed medical logistics for 5,000+ soldiers and \$2M in supplies in Iraq while absorbing a vacant Medical Operations Officer role and reporting medical operations to the Pentagon.

EDUCATION AND CREDENTIALS

Education: Master of Healthcare Administration, with honors, Rutgers University; Bachelor of Science, Public Health, Rutgers University; Associate of Science, Valley Forge Military College

Credentials: Google UX Design Certificate; Lean Six Sigma Green Belt, Purdue; UX, Data Analytics and Software Engineering Bootcamps, Noble Desktop
