

HILLARY ESPOSITO

HEALTHCARE PRODUCT & SERVICE DESIGNER | CLINICAL WORKFLOWS & CARE SERVICES

New York City | 908-616-2712 | espositohillary@gmail.com | hillaryesposito.org | linkedin.com/in/hillaryesposito

PROFESSIONAL SUMMARY

Healthcare product and service designer with 13+ years inside cancer-care operations and military medical logistics. Maps frontstage tasks to backstage people, systems, permissions, and handoffs; then carries changes through prototyping, stakeholder alignment, implementation, and adoption. Initiated an MSK workflow redesign that contributed inside a larger initiative to a 20% organization-wide EMR cost reduction. MHA, Lean Six Sigma Green Belt, Army veteran, and bilingual English/Spanish communicator.

CORE SKILLS

Healthcare product/service: clinical workflows, current/future-state mapping, journey mapping, service blueprinting, internal tools, change management, implementation, accessibility

Product and research: information architecture, task analysis, stakeholder interviews, workflow observation, survey synthesis, usability testing, functional prototypes, design systems

Tools and domain: Figma, FigJam, Miro, React, HTML/CSS, Epic/EMR workflows, healthcare operations, medical logistics, Lean Six Sigma

HEALTHCARE PRODUCT AND SERVICE EXPERIENCE

Trainer / Specialist | Memorial Sloan Kettering Cancer Center

New York, NY | Jan 2022 - Jul 2024

- Rebuilt administrative onboarding across Epic, HIPAA, compliance, and role-specific workflows using staff feedback, clearer sequencing, and reusable training materials for a 21,000+ person organization.
- Partnered with clinical, IT, imaging, and operations stakeholders to clarify ownership, exceptions, and handoffs across complex internal processes.

Administrative Assistant / Office Coordinator | Memorial Sloan Kettering Cancer Center

New York, NY | 2018 - 2022

- Mapped a paper-to-digital EMR workflow across four departments and presented the redesign. MSK implemented it two roles later as part of a broader initiative that reduced organization-wide EMR costs by 20%.
- Rewrote technical and legal CPR certification material around clinician questions and handoffs, enabling every certification to be collected 70% ahead of a deadline that had been at risk of slipping.

Commissioned Officer | NJ Army National Guard

2013 - 2026 | Platoon Leader, Company Commander, Brigade Medical Supply Officer

- Cut medical resupply time by 85% and spending by 60%, and improved deployment coordination by 15% across seven aid stations in three countries through shared tracking and reporting workflows.
- Directed medical logistics for 5,000+ soldiers and \$2M in supplies in Iraq while absorbing a vacant Medical Operations Officer role and reporting medical operations to the Pentagon.

CURRENT PRODUCT DESIGN

Founder, Product Designer, Developer | Grove - Plant Care App

Independent product | 2025 - Present | Functional prototype, Phase 2 of 3

- Narrowed 11 proposed features to 3 after synthesizing a 34-person self-report survey, then translated the priorities into information architecture, interaction states, and a functional React prototype.
- Owns research planning, product scope, responsive interaction design, accessibility, prototype implementation, and iteration; prototype is not presented as a shipped consumer product.

Content Designer, Contract | Mobbin

Remote | Mar 2026 - Jun 2026

- Documented 200+ mobile screens per app across Kikoff, Polymarket, and Discover, mapping navigation, interaction patterns, visual hierarchy, and microcopy for a reusable UX reference library.
- Applied a consistent taxonomy and review standard so product and design teams could find and compare complete finance-app flows; assignment covered documentation, not ownership of the products.

EDUCATION AND CREDENTIALS

Education: Master of Healthcare Administration, with honors, Rutgers University; Bachelor of Science, Public Health, Rutgers University; Associate of Science, Valley Forge Military College

Credentials: Google UX Design Certificate; Lean Six Sigma Green Belt, Purdue; UX, Data Analytics and Software Engineering Bootcamps, Noble Desktop
