Hillary Esposito

HEALTHCARE PRODUCT & SERVICE DESIGNER · CLINICAL WORKFLOWS & CARE SERVICES

New York City · espositohillary@gmail.com · hillaryesposito.org · linkedin.com/in/hillaryesposito

PROFESSIONAL SUMMARY

Healthcare product and service designer with six years inside cancer-care operations and 13+ years of Army service, including medical logistics. I map what staff do, where work changes hands, and who owns the next step. I stay through prototyping and implementation. An MSK workflow redesign I initiated contributed inside a larger initiative to a 20% organization-wide EMR cost reduction. MHA, Lean Six Sigma Green Belt, Army veteran, and bilingual English/Spanish communicator.

CORE SKILLS

Healthcare product/service: clinical workflows, current/future-state mapping, journey mapping, service blueprinting, internal tools, change management, implementation, accessibility

Product and research: information architecture, task analysis, stakeholder interviews, workflow observation, survey synthesis, usability testing, functional prototypes, design systems

Tools and domain: Figma, FigJam, Miro, React, HTML/CSS, Epic/EMR workflows, healthcare operations, medical logistics, Lean Six Sigma

HEALTHCARE PRODUCT AND SERVICE EXPERIENCE

Training Facilitator (retitled Trainer I Specialist) · Memorial Sloan Kettering Cancer Center

New York, NY · January 2022–July 2024

- Rebuilt the learning tracks for administrative onboarding across Epic, HIPAA, compliance, and role-specific workflows for a 21,000+ person organization.
- Partnered with clinical, IT, imaging, and operations stakeholders to clarify ownership, exceptions, and handoffs across complex internal processes.

Administrative Assistant / Office Coordinator · Memorial Sloan Kettering Cancer Center

New York, NY · 2018–2022

- Mapped a paper-to-digital EMR workflow across four departments and presented the redesign. MSK implemented it two roles later inside a broader initiative that reduced organization-wide EMR costs by 20%.
- Rewrote technical and legal CPR certification material around clinician questions and handoffs, enabling every certification to be collected 70% ahead of an at-risk deadline.

Commissioned Officer · NJ Army National Guard

2013–2026 · Platoon Leader, Company Commander, Brigade Medical Supply Officer

- Cut medical resupply time by 85% and spending by 60%, and improved deployment coordination by 15% across seven aid stations in three countries through shared tracking and reporting workflows.
- Directed medical logistics for 5,000+ soldiers and $2M in supplies in Iraq while absorbing a vacant Medical Operations Officer role and reporting medical operations to the Pentagon.

CURRENT PRODUCT DESIGN

Founder, Product Designer, Developer · Grove Plant Care

Independent product · 2025–Present · Functional prototype, Phase 2 of 3

- Narrowed 11 proposed features to 3 after synthesizing a 34-person self-report survey, then translated the priorities into information architecture, interaction states, and a functional React prototype.
- Own research planning, product scope, responsive interaction design, accessibility, prototype implementation, and iteration. The prototype is not presented as a shipped consumer product.

Content Designer, Contract · Mobbin

Remote · March–June 2026

- Documented 200+ mobile screens per app across Kikoff, Polymarket, and Discover, mapping navigation, interaction patterns, visual hierarchy, and microcopy for a reusable UX reference library.
- Applied a consistent taxonomy so product and design teams could compare complete finance-app flows. The assignment covered documentation, not ownership of the products.

EDUCATION AND CREDENTIALS

Education: Master of Healthcare Administration, with honors, Rutgers University; Bachelor of Science, Public Health, Rutgers University; Associate of Science, Valley Forge Military College

Credentials: Google UX Design Certificate; Lean Six Sigma Green Belt, Purdue; UX, Data Analytics, and Software Engineering Bootcamps, Noble Desktop
