HILLARY ESPOSITO

PRODUCT / UX DESIGNER | PLANT CARE, CONSUMER PRODUCTS & TRUSTWORTHY AI

New York City | espositohillary@gmail.com | hillaryesposito.org | linkedin.com/in/hillaryesposito

PROFESSIONAL SUMMARY

Product/UX designer building Grove, a functional plant-care prototype in Phase 2 of 3. Synthesized a 34-person self-report survey to cut 11 proposed features to 3, then defined directions for care, plant identification, confidence, sources, and pet safety around calm ongoing use. Brings consumer interaction craft, accessibility, coded prototyping, and 13+ years designing for trust in high-stakes systems.

CORE SKILLS

Consumer product: onboarding, information architecture, care loops, notification strategy, responsive interaction design, accessibility, design systems, functional prototypes
Research and trust: survey synthesis, usability testing, scope prioritization, AI confidence, source provenance, pet-safety information, human override, evidence limitations
Tools: Figma, FigJam, Miro, Notion, React, HTML/CSS, AI-assisted prototyping, design QA

CONSUMER PRODUCT DESIGN

Founder, Product Designer, Developer | Grove - Plant Care App

Independent product | 2025 - Present | Functional prototype, Phase 2 of 3

- Narrowed 11 proposed features to 3 after synthesizing a 34-person self-report survey, then translated the priorities into information architecture, interaction states, and a functional React prototype.
- Owns research planning, product scope, responsive interaction design, accessibility, prototype implementation, and iteration; prototype is not presented as a shipped consumer product.

Content Designer, Contract | Mobbin

Remote | Mar 2026 - Jun 2026

- Documented 200+ mobile screens per app across Kikoff, Polymarket, and Discover, mapping navigation, interaction patterns, visual hierarchy, and microcopy for a reusable UX reference library.
- Applied a consistent taxonomy and review standard so product and design teams could find and compare complete finance-app flows; assignment covered documentation, not ownership of the products.

HEALTHCARE SYSTEMS AND SERVICE EXPERIENCE

Training Facilitator (retitled Trainer I Specialist) | Memorial Sloan Kettering Cancer Center

New York, NY | Jan 2022 - Jul 2024

- Rebuilt the learning tracks for administrative onboarding across Epic, HIPAA, compliance, and role-specific workflows using staff feedback, clearer sequencing, and reusable training materials for a 21,000+ person organization.
- Partnered with clinical, IT, imaging, and operations stakeholders to clarify ownership, exceptions, and handoffs across complex internal processes.

Administrative Assistant / Office Coordinator | Memorial Sloan Kettering Cancer Center

New York, NY | 2018 - 2022

- Mapped a paper-to-digital EMR workflow across four departments and presented the redesign. MSK implemented it two roles later as part of a broader initiative that reduced organization-wide EMR costs by 20%.
- Rewrote technical and legal CPR certification material around clinician questions and handoffs, enabling every certification to be collected 70% ahead of a deadline that had been at risk of slipping.

Commissioned Officer | NJ Army National Guard

2013 - 2026 | Platoon Leader, Company Commander, Brigade Medical Supply Officer

- Cut medical resupply time by 85% and spending by 60%, and improved deployment coordination by 15% across seven aid stations in three countries through shared tracking and reporting workflows.
- Directed medical logistics for 5,000+ soldiers and $2M in supplies in Iraq while absorbing a vacant Medical Operations Officer role and reporting medical operations to the Pentagon.

EDUCATION AND CREDENTIALS

Education: Master of Healthcare Administration, with honors, Rutgers University; Bachelor of Science, Public Health, Rutgers University; Associate of Science, Valley Forge Military College
Credentials: Google UX Design Certificate; Lean Six Sigma Green Belt, Purdue; UX, Data Analytics and Software Engineering Bootcamps, Noble Desktop
